

TWO POST TELCO RACK PRODUCTS

SAVES VALUABLE RACK SPACE

- Keyboards and displays housed in steel cabinets with a powder coat finish.
- Shelves made of heavy .09" thick aluminum with a durable powder coat finish.
- Components can be purchased separately for easy modular changes/upgrades.
- Slide out keyboard and mouse choices mounted with lock-out ball bearing slides.
- No more wasted shelf space for a display - make use of the space behind the tilt down display.
- Provides display, keyboard and mouse combinations in only 2U of rack space for 19" and 23" racks.
